## LABOR'S CLAIMS ARE PRESENTED

Hearing on Employers' Liability Law and  
Workman's Compensation Act

## ARGUMENTS BEFORE COMMITTEE

House Chamber Was Crowded for First Hearing—President of State Federation of Labor Stands for Abrogation of Fellow Servant Law—Manufacturers Opposed to Both Measures as Introduced.

Hartford, Feb. 15.—Manufacturers, laboring men, representatives of unions, and legislators were crowded the house chamber for the first of the hearings given by the committee on judiciary and labor on all bills for an employers' liability law and a workman's compensation act.

Mr. Chandler asked as to the position of the federation on the doctrine of assumed risk. He replied that this was a species of class legislation. It was determined in many court decisions as something unound, unfair and unscientific. Personally he would like to have the legislature wipe out the doctrine. If the rule were abolished parties could reach an agreement mutually.

Representative Hotchkiss asked if labor was willing to accept the 1907 measure. Mr. Donahue said it was not. To Mr. Chandler, Mr. Donahue said he would gladly provide a draft of a bill covering his ideas if the committee desired him to do so.

Abolish Fellow Servant Rule.  
Mr. Donahue was further asked to say in a few words just what the fellow servant rule was. He said it was the abolition in toto of the fellow servant rule. "If your committee will do that," he said, "I will rise up and call you blessed."

Representative Meltzer's Argument.  
Representative Meltzer of Bridgeport opened the hearing by going into the application of a bill he had put in for a liability law, he asking for time to-morrow to speak on a compensation act.

He then proceeded to explain the rule of fellow servant, the operation of it as interpreted in Connecticut, the doctrine of contributory negligence and the assumption of risks, when, after speaking for half an hour, Representative Meltzer interrupted by saying that the bill was drafted entirely with elementary principles with which the members of the committee were familiar.

Mr. Meltzer then concluded by pointing out that the committee should have in view the right of workingmen the rights which have been taken from them under present-day conditions.

Representing Congressional Churches.  
Rev. Dr. C. S. MacFarlane of South Norwalk, representing the industrial and social committee of the state conference of Congregational churches, said he appeared in behalf of that body by reason of a vote of the conference. He advocated that the fellow servant rule be abolished.

From a Point of View.  
In the employers' liability bill the freedom of contract should be struck out; a man should not have the privilege to assume a risk, he should be made to assume a risk, he should be made to assume a risk, he should be made to assume a risk.

Mr. Wisner was called upon, and he said that the only ground on which the committee came before the legislature was of morals. It believed in the right of the fellow servant rule, contributory negligence and assumption of risks. The unfortunate condition of the law in which the general assembly from the moral point of view.

## CHICAGO SLOVAKS

PROTEST COUNT APPONYI  
As Speaker on Washington's Birthday—Claim He Represents Hungarian Tyranny.

Chicago, Feb. 15.—Dedicated opposition has been raised by Count Apponyi and Polish editors and citizens of Chicago to the invitation given Count Albert Apponyi, Count Hungarian minister of education, to speak at a "Universal Peace" at the Washington Birthday celebration in Chicago.

A memorial today was presented to Chairman A. A. McCormick of the Union League club, which is the committee in charge of the celebration, signed by the editors of all Chicago papers printed in the interest of Slovak people, asking that the invitation be withdrawn.

## DOROTHY ARNOLD PAWNED

JEWELRY WORTH \$500.  
Articles Are at Boston Pawnshop—Were Placed in September.

Boston, Feb. 15.—Dorothy Arnold, New York girl who has been missing since Dec. 15, pawned her watch, rings, brooch and bracelet, valued at over \$500, while she was on her way to Boston in September, according to information given out tonight.

Miss Arnold, who is now in New York, is frozen in the ice in Cabot straits. The pawnshop reported the location in the vicinity of St. John's.

The excitement abroad was attributed to the fact that a number of English and Canadian newspaper correspondents were in the room when the articles were pawned.

Mr. Clark's remarks may have appealed to them as the most important feature of the proceedings, and may have been called accordingly.

There was a further touch of facetiousness in the fact that the articles were pawned on Sept. 23 and the Arnold family were notified of the fact on Sept. 23.

Friends of the reciprocity measure were inclined to regard the articles as an entirely personal and harmless statement of the agreement simply stated upon what was regarded here as an entirely personal and harmless statement of the agreement.

A declaration similar to that made by Mr. Clark was also given by an opening speech last Monday in favor of the reciprocity bill, in the house.
